

Welcome to McPherson, Kansas! As you and your student prepare for the upcoming year of college, many things are probably running through your head. At Great Plains Family Medicine, we want to *ease any worries* you have about potential healthcare for your student. We have partnered with Central Christian College to offer care for students at our Direct Primary Care clinic.

What is Direct Primary Care?

Direct Primary Care (DPC) is an innovative alternative payment model improving access to high functioning healthcare with a simple, flat, affordable membership fee.

- No fee-for-service payments.
- No third-party billing.
- Trusting relationship between student and primary care provider.
- Extraordinary access to a physician
- Low monthly fee of \$25 or low yearly fee of \$300.
- Physicians are accountable, first and foremost, to members.

Benefits of Membership:

- Unlimited access to your doctor - Literally. After hours, weekends, holidays – there's no bad time to receive excellent care. Members receive the doctor's cell number for these situations.
- Extended, relaxed visits - Members don't feel rushed through an appointment and there's always time for questions. Part of the relationship that's built with the doctor is based on understanding of care.
- Same-day/next-day scheduling - Because the doctor only cares for about 600 patients, there's no "squeezing you in." Our members are our priority!
- Full access via technology - Our team can be reached via phone, e-mail, text, and video chat.

- An annual physical - This exam will be fitted to each member's personal medical needs. It's all about our members and each one's specific wellness goals.
- Diagnostic and procedural benefits at little to no extra costs - EKG, Spirometry, Breathing Treatments, Lesion Removal, Laceration Repair, just to name a few.
- Wholesale labs and medication costs - We pass our benefits right to our members. Acute medications like antibiotics and anti-inflammatories may even be no cost to your student.
- Transparency - We consider ourselves partners with you in your healthcare journey, which is why we offer complete transparency into our practice, billing and communication processes.
- ER visits - With the doctor available to members 24 hours a day, members will be referred to the ER only if necessary. By saving our members even one ER visit, we can save large unnecessary fees associated with an unnecessary ER visit.

Because we feel strongly about quality healthcare for all, we would like to offer our services to your student at significant savings.

By partnering with Central Christian College, **we're happy to offer these services for \$25 per student per month, or a total of \$300 per year.** This is a **savings of 55%** off our regular price.

If you have questions or would like more information about Great Plains Family Medicine, please contact us! We look forward to welcoming your student to campus in the fall!
